

ANGEL JARED MUÑOZ BAEZ (MX)

REACT JUNIOR DEVELOPER

2 years of experience on web development, especially React and Tailwind, in the last year I have been working on a personal project from which I learned CI/CD with Github Actions, E2E testing with Playwright, deployment on Vercel and Railway.app, and configuring subdomains using Namecheap.

MOST RECENT WORK EXPERIENCE

Software Engineer at Kristall [SaaS]

February 2023 – Present (kristall.app)

React, Nest.js, Tailwind CSS, Redux toolkit, Stripe, PostgreSQL, Typescript, Git

RESPONSIBILITIES

- Integration of Stripe payment with our server to manage users access to the app.
- Creation of a chart that collects user's data to show them a summary of their sales.
- Implementation of lazy loading for each route.
- Secure routes according to user's role.
- Global state management with Redux toolkit.
- Sync user's redux state with the database.
- Connections to our API Rest (server).
- Connection to our PostgreSQL database.

KEY ACCOMPLISHMENTS

- Implementation of CI/CD to ensure better software and code quality using linters and tests to proceed with automatic deployments on Vercel.
- Configure our server to automatically listen to a webhook from Stripe and give access to our users to the platform.
- Configure the subdomains for our app satisfactorily, assigning "kristall.app" to our landing page and "dashboard.kristall.app" to our customers' admin access.
- Assign a route for our customers to showcase and share their products, fully configurable, allowing them to enable or disable the page as they wish.

Freelance developer at Spatial Cosmic Architecture [Portfolio]

May 2023

Next.JS, Tailwind CSS, Typescript

RESPONSIBILITIES

- Style all the web with Tailwind CSS

- Responsive design
- Implementation of SEO with Next.JS
- Optimize the performance of the page for a better UX

KEY ACCOMPLISHMENTS

- Give to our customer better visibility.

SKILLS

- React
- Tailwind CSS
- Express
- Nestjs
- JavaScript
- TypeScript
